3.3 Add Multiple Dataloggers

Note: One account can create multiple plants and one plant can add multiple dataloggers. If you only have one datalogger, you can ignore this step.

① Tap the new plant you just created, and enter its home page.
② Click the **Device** button on the bottom of the home page.
③ Tap the " + " button at the top-right corner to add the datalogger.
④ Scan the datalogger PN on the Wi-Fi Plug14, or input it manually.

Plant Name
Current power: 59.96W
Daily income: ¥141.64Wh
Current power: 125kW
Total generation: 369.2
